*The baseline distribution of taxes used in this report has not been modified from the published *Who Pays?* results to reflect EITC and Child Tax Credit that Colorado lawmakers enacted in 2013. This is because the implementation of these provisions is conditional on revenue growth and passage of federal legislation allowing Colorado to collect sales taxes on online purchases. The figures represent total state and local taxes as a share of income, post-federal offset. Due to rounding, the new tax distributions shown may not always precisely equal the current distribution minus the EITC offset.
